

Parkeon - France – UK - Germany

baracoda
Data Capture for Workforce in Motion

Field Services of Pay & Display Terminals

- **Company**

Parkeon is a **world-leading player in the fields of on-street and off-street parking** and automated mass-transit ticketing equipment and systems

- **Customer Challenge**

Ensure real-time field services monitoring of Pay & Display terminals in France, UK and Germany

- **Solution**

150 Baracoda RoadRunners connected to QTek terminal
Software solution ASM Mobile

- **IT Architecture**

RoadRunners SDK provided by Baracoda and integrated on QTek terminals
Data transmitted in real-time via GPRS Edge to Parkeon's headquarters

- **Key Benefits**

- **Real-time traceability** of spare parts carried in technicians' vehicles
- **Optimization of technicians' tours** : they are sent to the right place, "just in time"
- **Pocket PC capitalization** by integrating both a business application and a barcode scanner
