

Asset Management

- **Company**

MTN Nigeria is part of the MTN Group, Africa's leading cellular telecommunication company, and has more than 3,000 employees

- **Customer Challenge**

Set up a mobile solution to capture barcodes in very limited working space and to scan assets that are closely packed together (cables)

- **Solution**

75 Baracoda Pencil 2 connected to i-mate Jasjar Pocket PC

- **IT Architecture**

The client Enterprise Solution runs on the i-mate JASJAR Pocket PC Phone
The communication with the PC back end server (SQL platform) is done via GPRS, Wireless LAN, and USB

- **Key Benefits**

- Elimination of cable discomfort
- Interfacing with the customer's software via the Baracoda Manager
- Environment friendly and easily adapted to the platform
- Long battery life span
- Mobile and easy to carry to remote sites.
